Trending Schedules**

TRENDING SCHEDULES

All information included in these schedules has been derived from information contained in our 2015 Annual Report on Form 10-K, our reports on Form 10-Q and the accompanying earnings presentations for each respective period.

The financial information contained in these schedules includes measures in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and non-GAAP measures. Non-GAAP measures, including consolidated operating free cash flow, free cash flow and adjusted results that exclude the impact of certain items identified as affecting comparability, are relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with GAAP, they should not be considered in isolation of, or as a substitute for, cash flow provided by operations, operating income, net earnings from continuing operations attributable to Viacom and diluted EPS as indicators of operating performance, and they may not be comparable to similarly titled measures employed by other companies.
