NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

NOTE 1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

Viacom Inc. including its consolidated subsidiaries (“Viacom” or the “Company”) is a leading global entertainment content company, engaging audiences on television, motion picture, Internet and mobile platforms through many of the world’s best known entertainment brands. Viacom operates through two reporting segments: *Media Networks*, which includes MTV Networks (“MTVN”) and BET Networks (“BETN”); and *Filmed Entertainment*. The *Media Networks* segment provides entertainment content for consumers in key demographics attractive to advertisers, content distributors and retailers. The *Filmed Entertainment* segment produces, finances and distributes motion pictures and other entertainment content under the Paramount Pictures, Paramount Vantage, MTV Films and Nickelodeon Movies brands. It also acquires films for distribution and has distribution relationships with third parties.

Basis of Presentation

Unaudited Interim Financial Statements

The accompanying unaudited consolidated quarterly financial statements have been prepared on a basis consistent with generally accepted accounting principles in the United States (“GAAP”) for interim financial information and pursuant to the rules of the Securities and Exchange Commission (“SEC”). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for the fiscal year ending September 30, 2011 (“fiscal year 2011”) or any future period. These statements should be read in conjunction with the Company’s Form 10-K for the nine month transition period ended September 30, 2010, as filed with the SEC on November 12, 2010 (the “2010 Form 10-K”).

Use of Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as of the dates presented and the reported amounts of revenues and expenses during the reporting periods presented. Significant estimates inherent in the preparation of the accompanying Consolidated Financial Statements include estimates of film ultimate revenues, product returns, allowances for doubtful accounts, potential outcome of uncertain tax positions, fair value of acquired assets and liabilities, fair value of equity-based compensation and pension benefit assumptions. Estimates are based on past experience and other considerations reasonable under the circumstances. Actual results may differ from these estimates.

Reclassification

Certain amounts have been reclassified to conform to the fiscal year 2011 presentation.

NOTE 2. EARNINGS PER SHARE

Basic earnings per common share excludes potentially dilutive securities and is computed by dividing *Net earnings attributable to Viacom* by the weighted average number of common shares outstanding during the period. The determination of diluted earnings per common share includes the potential dilutive effect of equity-based compensation awards based upon the application of the treasury stock method. Anti-dilutive common shares are excluded from the calculation of diluted earnings per common share.

VIACOM INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In the second quarter of 2011, we issued a total of \$1.0 billion of senior notes with maturities of six and ten years. In February 2011, we issued \$500 million aggregate principal amount of 4.5% Senior Notes due 2021 at a price equal to 98.320% of the principal amount. In March 2011, we issued \$500 million aggregate principal amount of 3.5% Senior Notes due 2017 at a price equal to 99.139% of the principal amount.

We used the net proceeds from the February 2011 offering of \$488 million to conduct a cash tender offer to repurchase a portion of the \$1.5 billion aggregate principal of our 6.25% Senior Notes due 2016 at a weighted-average purchase price of \$1,153.50 per \$1,000 of principal. Our repurchase of \$582 million of principal pursuant to the tender offer resulted in a pre-tax extinguishment loss of \$87 million.

At March 31, 2011, the total unamortized net discount related to the senior notes and debentures was \$33 million. The fair value of the Company's senior notes and debentures exceeded the carrying value by \$508 million at March 31, 2011. The valuation of the Company's publicly traded debt is based on quoted prices in active markets.

At March 31, 2011, there were no amounts outstanding under the Company's \$2.0 billion revolving facility due October 2013 or commercial paper program. The credit facility has one principal financial covenant that requires the Company's interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which the Company met at March 31, 2011.

NOTE 5. FINANCIAL INSTRUMENTS

At March 31, 2011, the Company's financial assets and liabilities reflected in the Consolidated Financial Statements at fair value consist of marketable securities and foreign exchange contracts. Fair value for marketable securities is determined utilizing a market approach based on quoted market prices in active markets at period end. Fair value for foreign exchange contracts is determined utilizing a market-based approach. The following table summarizes the valuation of the Company's financial assets and liabilities at March 31, 2011 and September 30, 2010:

Financial Asset (Liability) (in millions)	Total	Quoted Prices In Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3

Under the terms of the agreement, Paramount is entitled to retain a fee based on a percentage of gross receipts and is generally responsible for all out-of-pocket costs, which are recoupable together with any advance amounts paid. Paramount made advance payments of \$50 million and \$100 million to CBS in the quarters ended March 31, 2011 and 2010, respectively. Paramount also earns revenues from CBS through leasing of studio space and licensing of certain film products. Additionally, the *Media Networks* segment recognizes advertising revenues from CBS.

The *Media Networks* segment purchases television programming from CBS. The cost of such purchases is initially recorded as acquired program rights inventory and amortized over the estimated period that revenues will be generated. Both of the Company's segments recognize advertising expenses related to the placement of advertisements with CBS.

NOTE 8. COMMITMENTS AND CONTINGENCIES

As more fully described in Notes 3 and 14 of the 2010 Form 10-K, the Company's commitments primarily consist of programming and talent commitments, operating lease arrangements, purchase obligations for goods and services and future funding commitments related to equity investees. These arrangements result from the Company's normal course of business and represent obligations that may be payable over several years.

The Company is also subject to a redeemable put option, payable in a foreign currency, with respect to an international subsidiary, which was recently renewed. The put option now expires in January 2016, and is classified as *Redeemable noncontrolling interest* in the Consolidated Balance Sheets.

Contingencies

The Company has certain indemnification obligations with respect to leases associated with the previously discontinued operations of Famous Players and Blockbuster Inc. ("Blockbuster"). In addition, Viacom has certain indemnities provided by the acquirer of Famous Players and by Blockbuster. At March 31, 2011, these lease commitments, substantially all of which relate to Famous Players, amounted to \$648 million. The amount of lease commitments varies over time depending on expiration or termination of individual underlying leases, or of the related indemnification obligation, and foreign exchange rates, among other things. The Company may also have exposure for certain other expenses related to the leases, such as property taxes and common area maintenance. The Company has recorded a liability of \$205 million with respect to such obligations. Based on the Company's consideration of financial information available to it, the lessees' historical performance in meeting their lease obligations and the underlying economic factors impacting the lessees' business models, the Company believes its accrual is sufficient to meet any future obligations.

Legal Matters

Litigation is inherently uncertain and always difficult to predict. However, based on the Company's understanding and evaluation of the relevant facts and circumstances, the Company believes that the legal matters described below and other litigation to which the Company is a party are not likely, in the aggregate, to have a material adverse effect on its results of operations, financial position or cash flows.

In March 2007, the Company filed a complaint in the United States District Court for the Southern District of New York against Google Inc. ("Google") and its wholly-owned subsidiary YouTube, alleging that Google and YouTube violated and continue to violate the Company's copyrights. The Company is seeking both damages and injunctive relief. In March 2010, the Company and Google filed motions for summary judgment, and in June 2010, Google's motion was granted. The District Court decision has been appealed to the U.S. Court of Appeals for the Second Circuit and the appeal has been fully briefed. The Company believes it has a meritorious appeal.

In September 2007, *Brantley, et al. v. NBC Universal, Inc., et al.*, was filed in the United States District Court for the Central District of California against the Company and several other program content providers on behalf of a purported nationwide class of cable and satellite subscribers. The plaintiffs also sued several major cable and satellite program distributors. Plaintiffs allege that separate contracts between the program providers and the cable and satellite operator defendants providing for the sale of programming in specific tiers each unreasonably restrain trade in a variety of markets in violation of the Sherman Act. In October 2009, the court dismissed, with prejudice, the plaintiff's third amended complaint. The plaintiffs appealed the dismissal and the appeal is pending. The Company believes the plaintiffs' position in this litigation is without merit and intends to continue to vigorously defend this lawsuit.

The Company's 2006 acquisition agreement with Harmonix Music Systems, Inc. ("Harmonix"), a developer of music-based games, including the *Rock Band* franchise, provided that to the extent financial results exceeded specific contractual targets against a defined gross profit metric for the calendar years 2007 and 2008, former Harmonix shareholders would be eligible for incremental earn-out payments. In 2008, the Company paid \$150 million, subject to adjustment, under this earn-out agreement related to 2007 performance. The Company

VIACOM INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

believes that it is entitled to a refund of a substantial portion of amounts previously paid, but the final amount of the earn-out has not yet been determined and is subject to a private dispute resolution process. In December 2010, a representative of the selling shareholders filed a lawsuit in the Court of Chancery for the State of Delaware alleging that the Company breached its obligations under the acquisition agreement in a manner that could impact the earn-out calculation and made certain other claims. In January 2011, the Company filed a motion to dismiss or stay the lawsuit. In March 2011, plaintiffs filed an amended complaint. The Company believes the plaintiffs' position in these proceedings is without merit and intends to vigorously defend this lawsuit.

NOTE 9. DISCONTINUED OPERATIONS

Discontinued operations for all periods presented principally relates to Harmonix. In December 2010, the Company completed the sale of Harmonix. Included in the pre-tax loss from discontinued operations for the six months ended March 31, 2011 is a \$12 million loss from operations for the period through the date of sale and a \$14 million loss on disposal.

For tax purposes, the disposal generated a tax benefit of approximately \$115 million, of which approximately \$45 million is expected to be realized as a cash refund of taxes previously paid on capital gains and the remaining \$70 million benefit will be available to offset qualifying future cash taxes.

Investments in Variable Interest Entities

Unconsolidated Variable Interest Entities

At March 31, 2011 and September 30, 2010, the Company's aggregate investment carrying value in unconsolidated VIEs was \$135 million and \$98 million, respectively. The impact of the Company's unconsolidated VIEs on its Consolidated Financial Statements, including related party transactions, is further described in Note 7.

VIACOM INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Consolidated Variable Interest Entities

At March 31, 2011 and September 30, 2010, there were \$26 million and \$27 million of assets and \$85 million and \$84 million of liabilities, respectively, included within the Company's Consolidated Balance Sheets in respect of MTV Tr3s' investment interest in a Hispanic-oriented television broadcaster. The operating results of this consolidated VIE for the six months ended March 31, 2010 included a \$60 million non-cash impairment charge related to certain broadcast licenses held by the entity. The impact to *Net earnings attributable to Viacom* in the six months ended March 31, 2010 was a reduction of \$19 million, with the remaining \$41 million allocated to the noncontrolling interest. Except for the impairment charge, the entity's revenues, expenses and operating income for the quarter and six months ended March 31, 2011 and 2010 were not significant to the Company.

Accounts Receivable

At March 31, 2011, there were \$356 million of noncurrent trade receivables in the *Filmed Entertainment* segment included within *Other assets* in the Company's Consolidated Balance Sheet principally related to long-term television license arrangements and amounts due from MVL Productions LLC, a subsidiary of The Walt Disney Company, in connection with the sale of distribution rights. Such amounts are due in accordance with the underlying terms of the respective agreements and are principally from investment grade companies with which the Company has historically done business under similar terms, for which credit loss allowances are generally not considered necessary.

During the quarter ended December 31, 2009, activity under our former accounts receivable securitization programs consisted of \$433 million of proceeds from the sale of receivables and \$1.109 billion of cash remitted to the facility, including \$3 million of cash paid for interest. There were no amounts outstanding under the programs at December 31, 2009 and no activity during the quarter ended March 31, 2010.

NOTE 11. REPORTING SEGMENTS

The following tables set forth the Company's financial performance by reporting segment. The Company's reporting segments have been determined in accordance with the Company's internal management structure. The Company manages its operations through two reporting segments: (i) *Media Networks* and (ii) *Filmed Entertainment*. Typical intersegment transactions include the purchase of advertising by the *Filmed Entertainment* segment on *Media Networks*' properties and the purchase of *Filmed Entertainment*'s feature films exhibition rights by *Media Networks*. The elimination of such intercompany transactions in the Consolidated Financial Statements is included within eliminations in the table below.

The Company's measure of segment performance is adjusted operating income (loss). Adjusted operating income (loss) is defined as operating income (loss), less equity-based compensation and certain other items identified as affecting comparability, including asset impairment, when applicable.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

Management's discussion and analysis of results of operations and financial condition is provided as a supplement to and should be read in conjunction with the unaudited consolidated financial statements and related notes to enhance the understanding of our results of operations, financial condition and cash flows. Additional context can also be found in our Form 10-K for the nine month transition period ended September 30, 2010, as filed with the Securities and Exchange Commission ("SEC") on November 12, 2010 (the "2010 Form 10-K"). References in this document to "Viacom," "Company," "we," "us" and "our" mean Viacom Inc. and our consolidated subsidiaries through which our various businesses are conducted, unless the context requires otherwise.

Significant components of management's discussion and analysis of results of operations and financial condition include:

- *Overview.* The overview section provides a summary of Viacom's business.
- *Consolidated Results of Operations.* The consolidated results of operations section provides an analysis of our results on a consolidated basis for the quarter and six months ended March 31, 2011 compared to the quarter and six months ended March 31, 2010.
- *Segment Results of Operations.* The segment results of operations section provides an analysis of our results on a reportable operating segment basis for the quarter and six months ended March 31, 2011 compared to the quarter and six months ended March 31, 2010.
- *Liquidity and Capital Resources.* The liquidity and capital resources section provides a discussion of our cash flows for the six months ended March 31, 2011 compared to the six months ended March 31, 2010 and an update on our indebtedness.

OVERVIEW

Viacom is a leading global entertainment content company. Through its BET Networks, MTV Networks and Paramount Pictures divisions, Viacom connects with audiences through compelling content across television, motion picture, online and mobile platforms in more than 160 countries and territories. With approximately 170 media networks reaching more than 600 million global subscribers, Viacom's leading brands include MTV®, VH1®, CMT®, Logo®, BET®, CENTRIC®, Nickelodeon®, Nick Jr.®, TeenNick™, Nicktoons®, Nick at Nite™, COMEDY CENTRAL®, TV Land®, Spike TV® and Tr3s®. Paramount Pictures® is a major global producer and distributor of filmed entertainment. Viacom operates a large portfolio of branded digital media experiences, including many of the world's most popular properties for entertainment, community and casual online gaming.

We manage our operations through two reporting segments: *Media Networks* and *Filmed Entertainment*. Our measure of segment performance is adjusted operating income (loss). Adjusted operating income (loss) is defined as operating income (loss), less equity-based compensation and certain other items identified as affecting comparability, including asset impairment, when applicable.

We use consolidated adjusted operating income, adjusted net earnings from continuing operations attributable to Viacom and adjusted diluted earnings per share ("EPS") from continuing operations, as applicable, among other measures, to evaluate our actual operating performance and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare Viacom's results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with generally accepted accounting principles ("GAAP"), they should not be considered in isolation of, or as a substitute for, operating income, net earnings from continuing operations attributable to Viacom and diluted EPS as indicators of operating performance, and they may not be comparable to similarly titled measures employed by other companies. For a reconciliation of our adjusted measures and discussion of the items affecting comparability refer to section entitled "*Factors Affecting Comparability*".

**Management's Discussion and Analysis
Of Results of Operations and Financial Condition
(Continued)**

In December 2010, we completed the sale of Harmonix Music Systems, Inc. ("Harmonix"), a developer of music-based games, including the *Rock Band* franchise. Accordingly, the results of operations of Harmonix are presented as discontinued operations in all periods presented.

CONSOLIDATED RESULTS OF OPERATIONS

Our consolidated results of operations are presented below for the quarter and six months ended March 31, 2011 and 2010.

Revenues

Worldwide revenues increased \$535 million, or 20%, to \$3.267 billion in the quarter ended March 31, 2011 driven by increases in both *Filmed Entertainment* and *Media Networks* revenues. The increase of \$340 million in *Filmed Entertainment* revenues reflects higher theatrical, home entertainment and television license fee revenues. The increase of \$198 million in *Media Networks* revenues reflects higher advertising revenues and affiliate fees.

Worldwide revenues increased \$344 million, or 5%, to \$7.095 billion in the six months ended March 31, 2011 driven by increases in both *Media Networks* and *Filmed Entertainment* revenues. The increase of \$324 million in *Media Networks* revenues reflects higher advertising revenues and affiliate fees, partially offset by lower ancillary revenues. The increase of \$46 million in *Filmed Entertainment's* revenues reflects higher theatrical and ancillary revenues, partially offset by lower home entertainment and television license fee revenues.

Operating Income

Adjusted operating income increased \$206 million, or 37%, to \$760 million in the quarter ended March 31, 2011. *Filmed Entertainment's* adjusted operating income was \$39 million, compared with an \$83 million loss in the prior year quarter principally reflecting higher income from home entertainment and television license fee revenues. *Media Networks'* adjusted operating income increased \$91 million principally reflecting the increased revenues, partially offset by our continuing investment in programming. There were no adjustments to operating income in the quarters ended March 31, 2011 and 2010.

Adjusted operating income increased \$45 million, or 3%, to \$1.800 billion in the six months ended March 31, 2011. *Media Networks* adjusted operating income increased \$160 million principally reflecting the increased revenues, partially offset by our continuing investment in programming. *Filmed Entertainment* contributed a partially offsetting decrease of \$112 million principally reflecting the lower home entertainment and television license fee revenues. Adjusted results for the six months ended March 31, 2010 exclude the impact of asset impairment.

Including the impact of the prior year asset impairment, operating income increased \$105 million, or 6%, in the six months ended March 31, 2011. See the section entitled "*Factors Affecting Comparability*" for a reconciliation of our adjusted measures to our reported results.

**Management's Discussion and Analysis
Of Results of Operations and Financial Condition
(Continued)**

Net Earnings from Continuing Operations Attributable to Viacom

Adjusted net earnings from continuing operations attributable to Viacom increased \$175 million and \$102 million in the quarter and six months ended March 31, 2011, respectively, principally due to the increase in tax-affected adjusted operating income described above and higher equity income principally due to EPIX generating equity income this year as compared with losses in the prior year. Our effective income tax rate was 34.5% in the quarter and six months ended March 31, 2011, as compared with 36.2% in the quarter and 35.7% in the six months ended March 31, 2010, excluding the impact of discrete items. The reduction in this year's effective rate is principally due to a change in international mix of income. Adjusted diluted EPS from continuing operations increased \$0.30 per diluted share to \$0.72 for the quarter and \$0.18 per diluted share to \$1.74 for the six months.

Including the impact of the current year loss on extinguishment of debt and prior year asset impairment and discrete tax benefits, net earnings from continuing operations attributable to Viacom increased \$121 million in the quarter and \$17 million in the six months ended March 31, 2011. Diluted EPS from continuing operations increased \$0.21 per diluted share for the quarter and \$0.04 per diluted share for the six months. See the section entitled "Factors Affecting Comparability" for a reconciliation of our adjusted measures to our reported results.

Discontinued Operations, Net of Tax

The loss from discontinued operations for the six months ended March 31, 2011 principally reflects a loss on the disposal of Harmonix and the Harmonix operating loss for the period through the date of sale, partially offset by the related tax benefit. The prior year comparable periods principally reflect the operating loss related to Harmonix.

SEGMENT RESULTS OF OPERATIONS

Transactions between reportable segments are accounted for as third-party arrangements for the purposes of presenting reporting segment results of operations. Typical intersegment transactions include the purchase of advertising by the *Filmed Entertainment* segment on *Media Networks'* properties and the purchase of *Filmed Entertainment's* feature films exhibition rights by *Media Networks*.

Foreign exchange had a 2-percentage point favorable impact on international growth in the quarter while it had a 1-percentage point unfavorable impact on international growth in the six months.

Advertising

Worldwide advertising revenues increased \$116 million, or 12%, to \$1.076 billion in the quarter, and \$207 million, or 9%, to \$2.469 billion in the six months ended March 31, 2011. Domestic affiliate revenues increased 9% and 10%, respectively, principally due to rate increases. International affiliate revenues increased 6% in the quarter, with a 2-percentage point favorable impact from foreign exchange on international growth, and 5% in the six months ended March 31, 2011.

Ancillary

Worldwide ancillary revenues increased \$14 million, or 10%, to \$155 million in the quarter principally reflecting higher television syndication revenues and new consumer products deals. Domestic and international ancillary revenues each increased 10%. Operating expenses comprise costs related to original and acquired programming, including programming amortization, expenses associated with the manufacturing and distribution of home entertainment products, and consumer products licensing and participation fees. SG&A expenses consist primarily of employee compensation, marketing, research and professional service fees and facility and occupancy costs. Depreciation and amortization expenses reflect depreciation of fixed assets, including transponders financed under capital leases, and amortization of finite-lived intangible assets.

Total expenses increased \$107 million, or 9%, to \$1.276 billion in the quarter, and \$164 million, or 7%, to \$2.605 billion in the six months ended March 31, 2011, driven by increases in programming and SG&A costs.

Operating

Operating expenses increased \$57 million, or 9%, to \$715 million in the quarter, and \$110 million, or 8%, to \$1.493 billion in the six months ended March 31, 2011. Production and programming expenses increased \$49

million, or 8%, in the quarter, and \$111 million, or 9%, in the six months, principally reflecting expenses associated with our continuing investment in programming. Distribution and other expenses increased \$8 million, or 11%, in the quarter, and decreased \$1 million, or 1%, in the six months ended March 31, 2011.

Selling, General and Administrative

SG&A increased \$56 million, or 12%, to \$517 million in the quarter, and \$65 million, or 7%, to \$1.020 billion in the six months ended March 31, 2011, reflecting higher advertising and promotional expenses related to marketing original programming and certain international channels, as well as higher accrued incentive compensation costs associated with the improved operating performance and advertising sales.

Adjusted Operating Income

Adjusted operating income increased \$91 million, or 13%, to \$806 million in the quarter, and \$160 million, or 9%, to \$1.857 billion in the six months ended March 31, 2011, principally reflecting the higher advertising and affiliate revenues, partially offset by our continuing investment in programming and the higher SG&A costs.

Revenues

Our *Filmed Entertainment* segment generates revenues worldwide principally from: (i) the theatrical release and/or distribution of motion pictures, (ii) home entertainment, which includes sales of DVDs, Blu-ray and other products relating to the motion pictures we release theatrically, as well as certain other programming, including content we distribute on behalf of third parties and (iii) license fees paid worldwide by third parties for exhibition rights during the various other distribution windows and through digital media outlets. The *Filmed Entertainment* segment also generates ancillary revenues from providing production services to third parties, primarily at Paramount's studio lot, consumer products licensing, game distribution and distribution of its content on digital platforms.

Worldwide revenues increased \$340 million, or 38%, to \$1.226 billion in the quarter ended March 31, 2011 driven by an increase in theatrical, home entertainment and television license fee revenues. Domestic revenues were \$672 million, an increase of \$250 million, or 59%. International revenues were \$554 million, an increase of \$90 million, or 19%, with a 2-percentage point favorable impact from foreign exchange.

**Management's Discussion and Analysis
Of Results of Operations and Financial Condition
(Continued)**

Worldwide revenues increased \$46 million, or 2%, to \$2.723 billion in the six months ended March 31, 2011 driven by higher theatrical revenues and an increase in ancillary revenues reflecting the sale of substantially all of the worldwide distribution rights to *The Avengers* and *Iron Man 3* to MVL Productions LLC ("Marvel"), a subsidiary of The Walt Disney Company, partially offset by lower home entertainment and television license fee revenues. Domestic revenues were \$1.456 billion, an increase of \$17 million, or 1%. International revenues were \$1.267 billion, an increase of \$29 million, or 2%.

Theatrical

Worldwide theatrical revenues increased \$134 million, or 50%, to \$401 million in the quarter ended March 31, 2011, principally driven by strong carryover revenues from the films released in our fiscal first quarter, including *True Grit*, *Little Fockers*, *The Fighter* and DreamWorks Animation's *Megamind*, and higher revenues from current quarter releases. During the quarter, we released three films, *Rango*, *No Strings Attached* and *Justin Bieber: Never Say Never*. In the comparable period of 2010, we also released three films, including *Shutter Island* and DreamWorks Animation's *How to Train Your Dragon*. Domestic and international theatrical revenues increased \$63 million and \$71 million, respectively. Foreign exchange had a 4-percentage point favorable impact on international theatrical revenues.

Worldwide theatrical revenues increased \$457 million, or 127%, to \$817 million in the six months ended March 31, 2011, principally driven by the strength and number of our current year releases. During the six months ended March 31, 2011, we released ten films, including *Megamind*, *True Grit*, *Rango*, *Jackass 3D*, *Paranormal Activity 2*, *Little Fockers* and *The Fighter*. In the comparable period of 2010, we released seven films, including *Shutter Island*, *How to Train Your Dragon* and *Paranormal Activity*. Domestic and international theatrical revenues increased \$224 million and \$233 million, respectively. Foreign exchange had a 2-percentage point favorable impact on international theatrical revenues.

Home Entertainment

Worldwide home entertainment revenues increased \$113 million, or 38%, to \$410 million in the quarter ended March 31, 2011, principally reflecting the strength and number of our current quarter releases. During the quarter, we released nine titles, including *Megamind*, *The Fighter* and *Jackass 3D*, as compared to one title in the prior year quarter, *Up in the Air*. Domestic and international home entertainment revenues increased 72% and 1%, respectively, with a 3-percentage point favorable impact from foreign exchange on international home entertainment revenues.

Worldwide home entertainment revenues decreased \$394 million, or 27%, to \$1.048 billion in the six months ended March 31, 2011. Current year releases included DreamWorks Animation's *How to Train Your Dragon*, *Shrek Forever After* and *Megamind*, *The Last Airbender*, *The Fighter* and *Jackass 3D*. The decrease in revenues principally reflects the difficult comparison against the release of our strong 2009 summer tentpole titles *Transformers: Revenge of the Fallen*, *Star Trek* and *G.I. Joe: The Rise of Cobra*. Also contributing to the decline were lower revenues from catalog sales. The industry has experienced softness in the DVD market, which has particularly impacted sales of library product. Domestic and international home entertainment revenues decreased 30% and 24%, respectively, with a 1-percentage point unfavorable impact from foreign exchange on international home entertainment revenues.

Television License Fees

Worldwide television license fees increased \$77 million, or 30%, to \$336 million in the quarter, and decreased \$94 million, or 13%, to \$610 million in the six months ended March 31, 2011, driven by the number and mix of available titles. The increase in the quarter principally reflects higher network television and syndication fees while the decrease in the six months principally reflects lower pay TV fees, partially offset by higher network television fees.

**Management's Discussion and Analysis
Of Results of Operations and Financial Condition
(Continued)**

Ancillary

Ancillary revenues increased \$16 million, or 25%, to \$79 million in the quarter, reflecting higher digital revenues, partially offset by lower merchandising revenues reflecting a difficult comparison against merchandising revenues from *Transformers: Revenge of the Fallen* in the prior year. Ancillary revenues increased \$77 million, or 45%, to \$248 million, in the six months ended March 31, 2011, driven by the sale of the distribution rights to *The Avengers* and *Iron Man 3* to Marvel, partially offset by lower merchandising revenues.

Expenses

Filmed Entertainment segment expenses consist of operating expenses, SG&A expenses and depreciation and amortization expenses. Operating expenses principally include the amortization of production costs of our released feature films (including participations accrued under our third-party distribution arrangements), print and advertising expenses and other distribution costs. SG&A expenses include employee compensation, facility and occupancy costs, professional service fees and other overhead costs. Depreciation and amortization expense includes depreciation of fixed assets and amortization of finite-lived intangible assets.

Total expenses increased \$218 million, or 22%, to \$1.187 billion in the quarter, and \$158 million, or 6%, to \$2.616 billion in the six months ended March 31, 2011, principally due to the increase in operating expenses.

Operating

Operating expenses increased \$204 million, or 24%, to \$1.047 billion in the quarter ended March 31, 2011. Film costs increased \$140 million, or 36%, primarily reflecting higher amortization of film costs due to the number and mix of theatrical and home entertainment releases. Distribution and other costs, principally print and advertising expenses, increased \$64 million, or 14%, principally due to the increase in number of home entertainment releases.

Operating expenses increased \$186 million, or 9%, to \$2.335 billion in the six months ended March 31, 2011. Distribution and other costs, principally print and advertising expenses, increased \$318 million, or 35%, due to the increase in number of theatrical releases, partially offset by lower home entertainment expenses. Film costs declined \$132 million, or 11%, primarily reflecting lower amortization of film costs due to the mix of home entertainment releases.

Selling, General and Administrative

SG&A increased \$15 million, or 15%, to \$118 million in the quarter, and decreased \$19 million, or 7%, to \$237 million in the six months ended March 31, 2011. The increase in the quarter reflects the timing of various expenses, including accrued incentive compensation costs associated with the strength of the current period operating performance. In the six months, the decrease was also principally driven by the timing of incentive compensation costs.

Adjusted Operating Income

Adjusted operating income of \$39 million was recorded in the quarter ended March 31, 2011 as compared with an adjusted operating loss of \$83 million in 2010. This improvement primarily reflects higher income from home entertainment and television license fee revenues. Adjusted operating income decreased \$112 million to \$107 million in the six months ended March 31, 2011, principally reflecting the lower home entertainment and television license fee revenues, partially offset by the benefit of the sale of the distribution rights to *The Avengers* and *Iron Man 3* to Marvel.

Factors Affecting Comparability

The consolidated financial statements for the quarter and six months ended March 31, 2011 and 2010 reflect our results of operations, financial position and cash flows reported in accordance with U.S. generally accepted accounting principles. These results were affected by certain items identified as affecting comparability.

The following tables reconcile our results for the quarter and six months ended March 31, 2011 and the six months ended March 31, 2010 to adjusted results. There were no adjustments to our results for the quarter ended March 31, 2010.

Extinguishment of Debt

In February 2011, we issued \$500 million aggregate principal amount of 4.5% Senior Notes due 2021 at a price equal to 98.320% of the principal amount. We used the net proceeds from this offering of \$488 million to conduct a cash tender offer to repurchase a portion of the \$1.5 billion aggregate principal of our 6.25% Senior Notes due 2016. Our repurchase of \$582 million of principal at a purchase price of \$1,153.50 per \$1,000 pursuant to the tender offer resulted in a pre-tax extinguishment loss of \$87 million.

Of Results of Operations and Financial Condition

Asset Impairment

In the quarter ended December 31, 2009, we recorded a \$60 million non-cash impairment charge in the *Media Networks* segment related to certain broadcast licenses held by a 32%-owned consolidated entity. The impact to *Net earnings attributable to Viacom* was a reduction of \$19 million, with the remaining \$41 million allocated to the noncontrolling interest.

Discrete Tax Items

Our effective income tax rate was 34.5%, excluding the impact of the loss on extinguishment of debt, in the quarter and six months ended March 31, 2011. The discrete impact of the loss was 0.5 and 0.2 incremental percentage points of tax benefit, which reconciles to the reported effective rate of 34.0% and 34.3%, respectively.

Our effective income tax rate was 35.7%, excluding the impact of discrete items, in the six months ended March 31, 2010. Discrete tax benefits of \$50 million, taken together with the impact of asset impairment, contributed 2.0 percentage points of tax benefit, which reconciles to the reported effective rate of 33.7%. The discrete taxes were principally due to reserve releases resulting from effectively settled audits.

LIQUIDITY AND CAPITAL RESOURCES

Sources and Uses of Cash

Our primary source of liquidity is cash provided through the operations of our businesses. Our cash flows from operations, together with our \$2.0 billion revolving credit facility, provide us with sufficient resources to fund our anticipated ongoing cash requirements.

Our principal uses of cash in operations include the creation of new programming and film content, acquisitions of third-party content, and interest and tax payments. We also use cash for ongoing investments in our businesses, capital expenditures, acquisitions of businesses, quarterly cash dividends and discretionary share repurchases under our \$4.0 billion stock repurchase program, as deemed appropriate.

Cash Flows

Cash and cash equivalents increased by \$718 million in the six months ended March 31, 2011.

Operating Activities

Cash provided by operations was \$1.444 billion for the six months ended March 31, 2011, an increase of \$627 million compared with the same period in 2010. The increase principally reflects the comparison against a \$775 million reduction in securitized receivables in 2010, lower income tax payments and higher revenues, partially offset by increased production spending and higher participation payments associated with third party distribution arrangements at the *Filmed Entertainment* segment, and payment of a premium on our debt extinguishment. In addition, cash used in discontinued operations was \$20 million in fiscal 2011 as compared with cash provided by discontinued operations of \$142 million in the prior year, principally due to the timing of product launches and six months of activity in the prior year as compared with three months in the current year.

Investing Activities

Cash used in investing activities was \$101 million for the six months ended March 31, 2011, compared with \$160 million in the same period in 2010. The decrease is due to lower spending on capital expenditures and acquisitions and investments. In fiscal 2011, cash used in investing activities included \$59 million related to acquisitions and investments principally reflecting an investment in a European television programmer. In the prior year, cash used in investing activities included \$78 million related to acquisitions and investments principally related to the acquisition of Teenage Mutant Ninja Turtles and investment in EPIX.

**Management's Discussion and Analysis
Of Results of Operations and Financial Condition
(Continued)**

Financing Activities

Cash used in financing activities was \$637 million for the six months ended March 31, 2011. The net outflow is primarily driven by share repurchases and dividends. During the six months ended March 31, 2011, we repurchased 21.8 million shares for an aggregate purchase price of \$900 million, of which \$852 million of repurchases had settled as of March 31, 2011, and paid \$182 million in dividends. From April 1, 2011 through April 27, 2011, we repurchased an additional 3.3 million shares for an aggregate purchase price of \$156 million. The net impact of our issuance of \$1.0 billion of senior notes and repurchase of \$582 million principal amount of our 6.25% Senior Notes due 2016 contributed a partially offsetting inflow.

Cash used in financing activities of \$544 million in the six months ended March 31, 2010 was driven by the repayment of long-term debt and commercial paper borrowings.

Capital Resources

Capital Structure and Debt

At March 31, 2011, total debt was \$7.157 billion, an increase of \$405 million from \$6.752 billion at September 30, 2010. During the quarter, we took advantage of favorable market conditions to lengthen the maturities and reduce the weighted-average borrowing cost of our public debt. In February 2011, we issued \$500 million aggregate principal amount of 4.5% Senior Notes due 2021 and used the net proceeds to repurchase \$582 million principal amount of our 6.25% Senior Notes due 2016. In March 2011, we issued \$500 million aggregate principal amount of 3.5% Senior Notes due 2017. We intend to use the net proceeds from this offering for general corporate purposes, including the repayment of the remaining \$193 million principal amount of our 5.75% Senior Notes due on April 30, 2011 and the repurchase of shares under our stock repurchase program.

Cash and cash equivalents were \$1.555 billion, an increase of \$718 million from \$837 million at September 30, 2010. There were no amounts outstanding under our \$2.0 billion revolving credit facility or commercial paper program at March 31, 2011. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met at March 31, 2011.
